

My husband and I have a small mom-pop employment agency in Tampa Fl. that specializes in Accounting & Bookkeeping personnel.

On a weekly basis (Sunday classified employment section of my local newspaper) we respond to ads for Accountants & Bookkeepers.

When the company includes their name we mail information about our service.

But when a company doesn't include their name and only lists their Fax number we want to be able to respond with a fax. It is very important to a small business owner like us, to be able to use faxing, about 30 to 40 per week, to a small number of businesses without prior consent as long as we include an Opt-Out provision. The fax numbers change on a weekly basis per the employment ads that week.
